About Me

I am a high-achieving software engineer with a focus on project work, strong collaboration, sharp-mindedness, and time-management skills. My excellent work, extracurricular activities, and technical expertise reflect my leadership, teamwork, and results-driven approach to problem-solving.

Education

Master of Web Engineering
TU Chemnitz University   *2024-2026*

Bachelor of Software Engineering
Epoka University   *2021-2024*

Experience

Software Engineer
AE Distribution   *15/07/2023 - 01/07/2024*
- Developed and maintained web applications, managing large datasets and implementing threading techniques to enhance efficiency.
- Debugged and resolved software issues to ensure smooth operation.
- Optimized code performance through automated testing.
- Designed and integrated new features to improve functionality.

Web Developer & Social Media Manager
Protik Innovation Center   *01/07/2023 - 01/10/2023*
- Contributed as a web developer and social media manager.
- Organized events to support company initiatives.
- Managed the company's social media presence to improve engagement.
- Developed new website components to enhance user experience and functionality.

Technical Skills

Java	Spring	Microservices	JavaScript	TypeScript
React	HTML	CSS	Tailwind	React Native
Node.js		Express.js	MongoDB	PostgreSQL
SQL	Git	JWT/OAuth		WebSocket/Socket.io
Python	C#	PHP	Laravel	

💼 Projects

ChiefSoft

- Created a professional website for ChiefSoft, a startup, to showcase its services and attract potential clients.
- Focused on delivering a clean and modern interface to highlight the company's core offerings.
- Ensured a responsive design for seamless functionality across all devices.
- Gained expertise in web development, user experience design, and responsiveness optimization.

AEDistribution

- Managed large datasets for AEDistribution, processing 50 million rows daily for gas station fiscalization.
- Used Java services, threading, and optimization to handle high data volumes efficiently.
- Ensured data compliance and integrity in the processing workflow.
- Gained expertise in scalable solutions and streamlining data processing for accurate results.

TastyRush

- Developed TastyRush, a program showcasing a variety of restaurants to help users explore dining options.
- Integrated search filters, detailed information, and user reviews to improve the experience.
- Built a robust backend for data management and an intuitive front-end for seamless interaction.
- Refined skills in creating user-focused applications with smooth and engaging experiences.

ArtHive

- Created ArtHive, a platform for artists to showcase their work and connect with art enthusiasts.
- Designed user profiles, galleries, and interactive features to foster engagement and community growth.
- Led the design and implementation of core functionality to meet the needs of artists and visitors.

💼 Experience outside Tech

Assistant
Don Boscko   2018 - 2023

- Volunteered at Don Bosko for several years, supporting children and adults through events, games, and tutoring in math and English.
- Gained valuable skills, fostered a positive learning environment, and learned to balance my social life effectively.

Recepsionist
Hotel Colosseo Shkoder   June 2020 - September 2020

- Served as a receptionist at Hotel Colosseo Shkodër, managing guest check-ins, reservations, and front desk operations.
- Handled inquiries, coordinated with departments, and ensured a smooth visitor experience.
- Improved communication, multitasking, and problem-solving skills in a fast-paced environment.
